# Simen Myrrusten

## Profile

Newly educated engineer in renewable energy with experience from the hotel industry. Recently started studying Communication technology and Network Security due to my interest of programming.

## Education

**2018 - 2021, Norwegian University of Science and Technology, Trondheim**

**Bachelor Renewable Energy** Wrote a bachelor thesis about PV solar panels on refrigerated warehouses. The thesis was written in english.

**2021 - 2025, Norwegian University of Science and Technology, Trondheim**

**Communication technology and Network Security** Currently attending the third semester.

## Experience

**April 2016 - August 2020, Waiter, Quality hotel**

Worked at Quality hotel Tønsberg and Quality hotel Augustin in Trondheim during this time. Worked at dinner parties, behind the bar, a la carte and had the primary responsibility for several dinner parties. For references, please reach out.

**January 2021 - Mai 2021, Bachelor thesis, NTNU Trondheim**

Had the responsibility of importing, manipulating and visualizing data in a group of three. Had also the co-responsibility of contacting and communicating with relevant industry companies for the thesis through e-mail and video calls.

## Skills

**Programming and computer skills**

- Java
- Python
- Microsoft Office
- LaTeX

## Interests

**Professional**

Solar energy, programming and data analysis.

**Personal**

Blockchain technology, basketball and investing.

## Characteristics

- Patient
- Reliable
- Analytical
- Problem solver
- Social
- Persistent
